Structural design patterns

Sunday, 18 January 2026 11:14 AM

focus on creating larger structures by organising classes & objects.

Types

- → Decorator
- → Adapter
- → Bridge
- → Facade.

Decorator

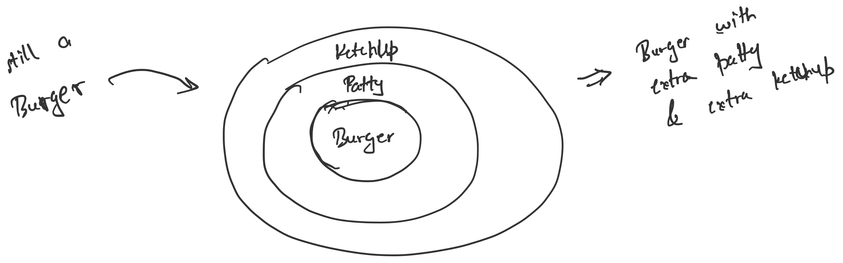
↳ dynamically add behavior to individual object without charging other objects of the same class.

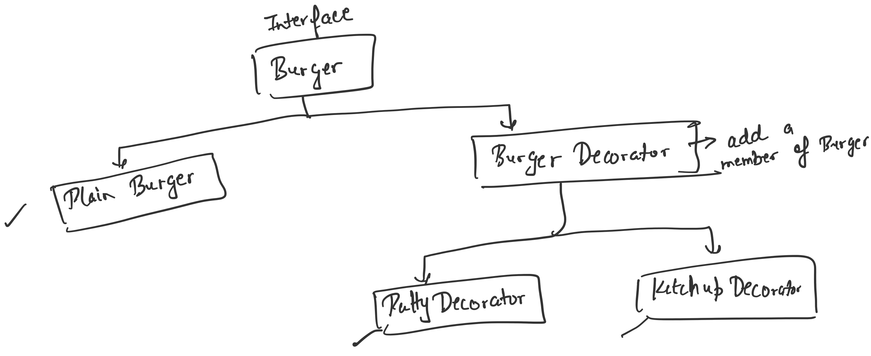
Burger

- → add extra patty
- → add extra ketchup
- → add extra seasoning.

Burger

- ↳ method to add patty
- → ketchup
- → seasoning.
- → future extension





new Patty Decorator (new PlainBurger())

↳ decorating
